Subject:

Rush Search for Serial No. 10/049,265

Importance: High

I would like to request a Rush Search for Serial No. 10/049,265 as listed below since it is an amended case.

Christian L. Fronda Art Unit 1652 Office REM 2D78 Mailbox REM 2C70

(571)272-0929

Please perform sequence search and interference search for Serial No. 10/049,265

- 1. Please search SEQ ID No: 1 against nucleic acid commercial and interference databases including pending and issued.
- 2. Please search SEQ ID No: 2 against nucleic acid commercial and interference databases including pending and issued.

Please save on COMPUTER DISKETTES.

Please save results from interference data base search on different diskettes from the commercial and issued search results.

Thank you very much.

Christian Fronda Art Unit 1652

Search Notes

RUSH

Please contact me if you encounter any problems with the files.

Please feel free to contact me if you have any questions or would like to amend the search.

Thank you for using STIC services.

Regards,

Deirdre Arnold

Pending Nucleic Acid and Pending Amino Acid database searches generate two sets of results each. The Pending databases have been split into two parts to reduce the amount of time required for their daily updates. This results in more machine time being available for processing searches. Searches run against the Nucleic Acid Pending database produce two sets of results, with the extensions

.rnpm and .rnpn

Searches run against the Amino Acid Pending database produce two sets of results, with the extensions

Because they contain data that is confidential, the results of Pending database searches should not be left in the case .
